

MIRACLE[®]

Let's make it better.

LANDSCAPE LIGHTING TRANSFORMER

Product Details

- This transformer features a high-quality stainless steel case and includes multiple taps to accommodate voltagedrops. Available in 150, 300, and 600 watts, these transformers can support any project size.
- The enclosure is made of prime SS 304 grade stainless steel (a carbon steel enclosure with powder coating can be provided upon request).
- A circuit breaker is included for circuit protection.
- Block terminals provide an easy way for customers to connect the secondary tappings.
- A photocell and timer can be connected according to customer requirements.

Technical Details

- Frequency- 50/60 Hz
- Insulation class – F, H
- Max. regulation – 10%
- Dielectric – 2000v, primary to secondary for 1 second.
- Dielectric – 2000v, all windings to lamination for 1 second.

Features

- UL 1838 Certified
- Secondary circuit breaker
- Two knockout sizes for conduit
- Removable bottom & 4ft Grounded plug
- Terminal block for easy access
